Dear Madam
Dear Sir

On behalf of the AstraZeneca Foundation, it is our pleasure to invite you to a symposium on “Health technology assessment in health care decisions” that will be held in Ghent on December 14, 2009.

This symposium is part of a series ‘Lectures in Medicine’ organised by the Foundation in accordance with its mission “to contribute to the continuous education of medical doctors and other health care providers in order to reach higher international standards and to enhance innovation and excellence in medicine and health sciences”.

This symposium deals with health technology assessment in health care decisions; a topic that receives more and more attention given the choices that have to be made in medicine and the limitations that health care is facing in the implementation of new technologies in prevention, in health care and cure.

The international perspective will be covered by an outstanding invited guest and the applications in Belgium by a multidisciplinary panel of local experts.

We look forward to welcoming you at this symposium,

With kind regards,

Prof. G. De Backer, MD, PhD
Administrator
Foundation AstraZeneca

Prof. M. Decramer, MD, PhD
Chairman
Foundation AstraZeneca

Prof. L. Annemans, MSc, PhD

Chairman:

Lieven Annemans, Prof. Dr (Ghent University, Belgium)
