

## ANSER 2022

### Stakeholder Meeting

Wednesday, 9 November 2022

13:00 - 16:00 CET

The Academic Network for Sexual and Reproductive Health Policy (ANSER) formally meets with a wide range of SRHR stakeholders every year. The meeting has a double aim. First, to update policy makers, civil society, and practitioners on recent evidence on sexual and reproductive health generated by ANSER. And secondly, to hear from all stakeholders what data gaps they experience in their work and what SRHR issues they believe ANSER should prioritise in the coming year. That way the network expands the voices and participation of non-academics in research, by seeking feedback on SRHR evidence needs in society.

#### Programme

- |       |   |
|-------|---|
| 13:00 | <b>Welcome &amp; overview of the program</b><br>Prof. Olivier Degomme (ANSER secretariat/ICRH, Ghent University)  |
