What tool(s) do you use to manage student mobility

EWP's infrastructure A hybrid approach

EWP Network

- Keep using the tools we already have
- EWP Network connects the tools

EWP Dashboard

- Free cloud solution for institutions that don't have an IT solution

The best of two worlds

- EWP infrastructure supports using combination of own tools & Dashboard functionality (e.g. OLA)

How to join?

Different scenario's for joining Erasmus Without Paper

For more info on the different scenario's for joining Erasmus Without Paper:

[Go to functionalities](#)

If you know what scenario is applicable for you institution, click the box below.

Erasmus Dashboard

When you use the Erasmus Dashboard to manage mobilities, you can join Erasmus Without Paper via the Erasmus Dashboard.

Commercial mobility software

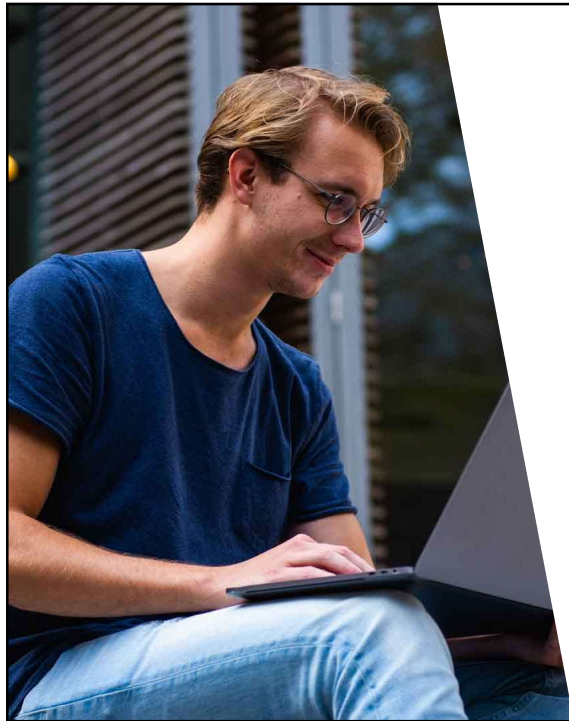

When using third-party software, you will join Erasmus Without Paper via your software provider who will connect your system to Erasmus Without Paper.

In-house built mobility software

When using in-house built mobility software, you will need to connect your system to the Erasmus Without Paper network.

Wat is the current status of LAs & EWP at your institution

We have already successfully exchanged several IIAs via EWP

35%

We are struggling to get connected to EWP

20%

We use LAs on PDF

15%

This process is the responsibility of another service at my university

15%

We are ready to exchange LAs via EWP but our partners aren't ready

10%

We have already exchanged successfully at least on LA via EWP

Some light at the end of the tunnel

Technical testing and validation

Gemaakt door Anikó Makai-Kovács, laatste wijziging op nov 29, 2021

From the moment that the **Dashboard has been fully integrated with the EWP Network** (effective 12 June 2021) all the data exchange processes fall in one of these two categories:

- Dashboard to Dashboard users;
- Dashboard to users in EWP, represented via 3rd party mobility management software providers (3PP) or HEI in-house built systems.

Technical testing and validation has been/is carried out between the concerned engineering teams of the Dashboard and any 3PP in order to ensure the correct functioning of the digital tools

Please note, that while it does not guarantee a bug-free data exchange it should provide a clear enough **signal** to the universities **that a given exchange is viable**.
 In order to make this process as transparent as possible, we also publish a regularly updated list of which technical tests have been successfully completed, below.

-If a given provider is not listed here please do not assume that the EWP connection can be successfully established through the Dashboard from your organisation.

-Conversely, if the provider features in the list but you encounter issues exchanging data please feel free to contact the Dashboard helpdesk. At present we are not able to escalate technical issues to L2 or L3 teams due to the lack of resources, but we are nonetheless indexing issues that were not registered during the technical testing.

Date	Name of the partner	Type of document that can be exchanged	Status
14th September 2021	Masaryk University, ISOIS	OLA	Confirmed
6th October 2021	SOP Mobility-Online	OLA	Confirmed
14th October 2021	MoveON	OLA	Confirmed
18th October 2021	ErasmusJet	IIA	Confirmed
12th November 2021	SOP Mobility-Online	IIA	Confirmed
29th November 2021	USOS	IIA	Confirmed

Framework contract LOT 1 EWP+ Consortium

Part 1: Reinforcing the Erasmus Without Paper Network and coordinating further digitalisation of Erasmus+ programme

„Firefighting“ activities

- Increasing the reliability, security, expandability and interoperability of the EWP Dashboard with the rest of the EWP Network
- Improving and reinforcing the EWP Network performance
- Delivering support and training to the community of users

Ongoing activities

- Establishing and running an EWP governance structure
- Running communication campaigns

Part 2: Creating an interoperable, modular and scalable Erasmus Without Paper infrastructure

New IT development

- Critical analysis of current system
- Proposal and preparation of solution to enhance EWP Network and Dashboard
- Development phase
- Business continuity and change management

2022 priorities: communication – governance – support – improvement of infrastructure

Some light at the end of the tunnel: Ghent University perspective

Connected via inhouse system Oasis

- 37 (out of 985) agreements signed in production
- Systems used by partners: Erasmus Dashboard, Mobility Online, MoveON, SolveMove, Usos, inhouse

Working on OLA-implementation

European student identifier

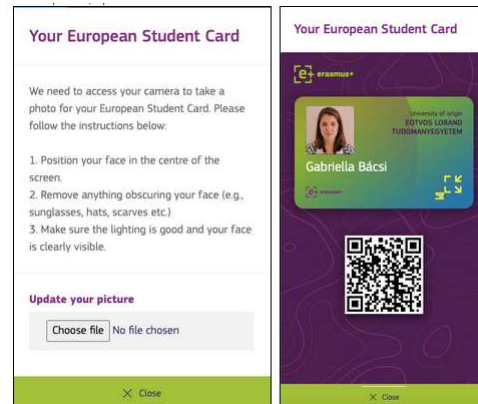

Needed for European Student Card in Erasmus App

Needed for exchanges in EWP

→ Contact IT staff working on identity management
