8 December 2021

Una Europa and the 1EUROPE project. Going beyond current ambitions in European collaboration

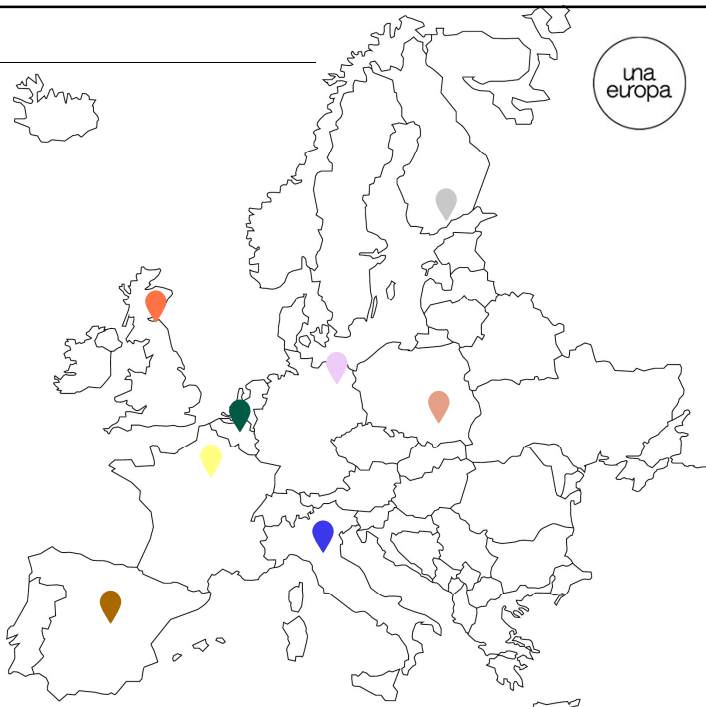

# Una Europa Alliance

## Una Europa University Partners

- + Freie Universität Berlin
- + Università di Bologna
- + University of Edinburgh
- + Helsingin Yliopisto
- + Uniwersytet Jagielloński w Krakowie
- + KU Leuven
- + Universidad Complutense de Madrid
- + Université Paris 1 Panthéon-Sorbonne

# Introduction

The ultimate goal of Una Europa is to enhance the quality of education and research to make a meaningful contribution to society.

We are creating a truly European inter-university environment, where outstanding research is continuously linked to transnational learning and innovative, critical thinking.

## University of the Future

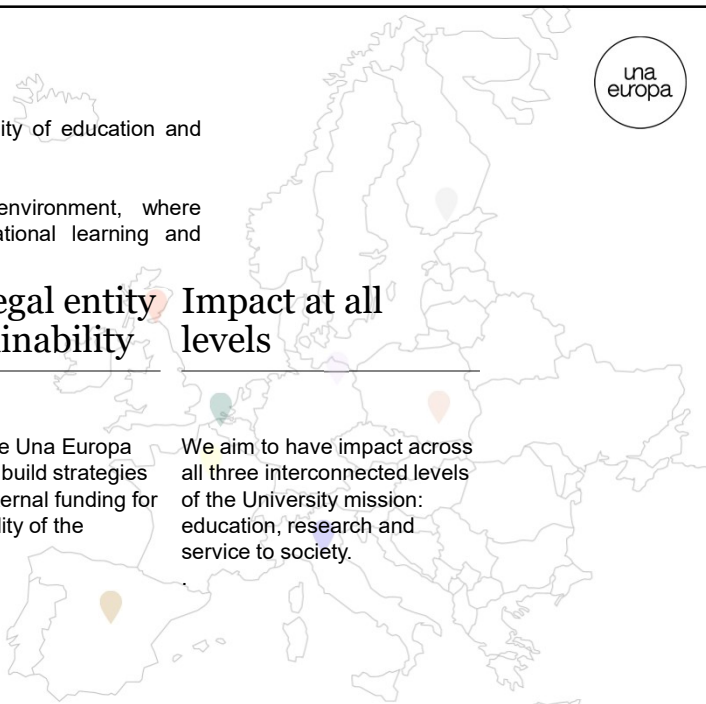

Among the first selected 'European Universities' at EU level, we aim to fulfil our claim to become the leading sustainable research-intensive university that is open and inclusive.

## A joint legal entity for sustainability

We created the Una Europa association to build strategies and attract external funding for the sustainability of the alliance.

## Impact at all levels

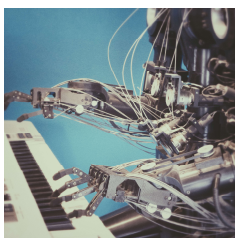

We aim to have impact across all three interconnected levels of the University mission: education, research and service to society.

# Our Focus Areas

Cultural Heritage

Data Science & AI

European Studies

One Health

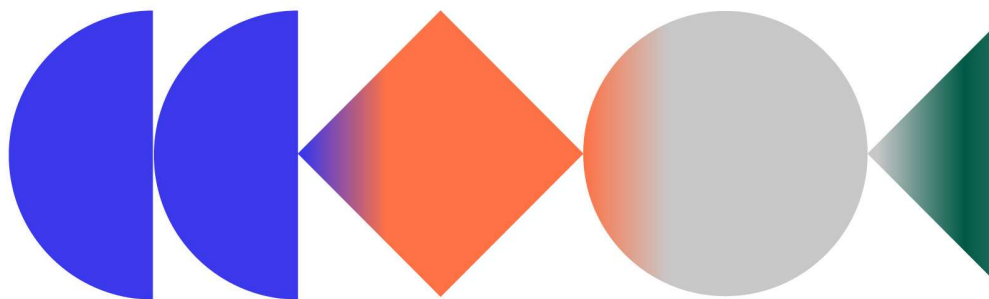

Sustainability

# Una Europa 1Europe project

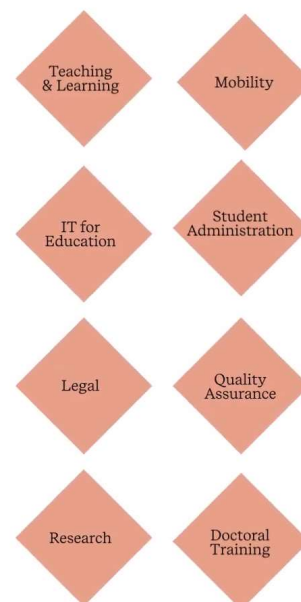

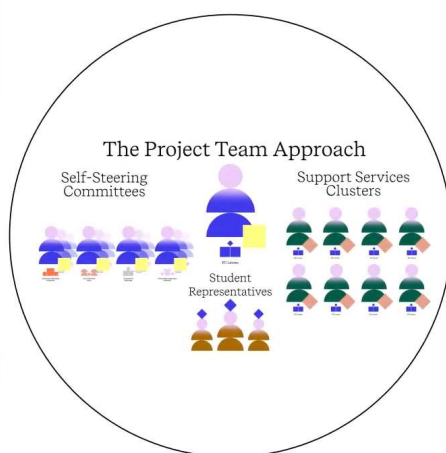

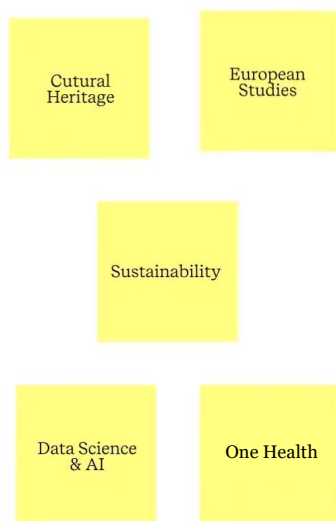

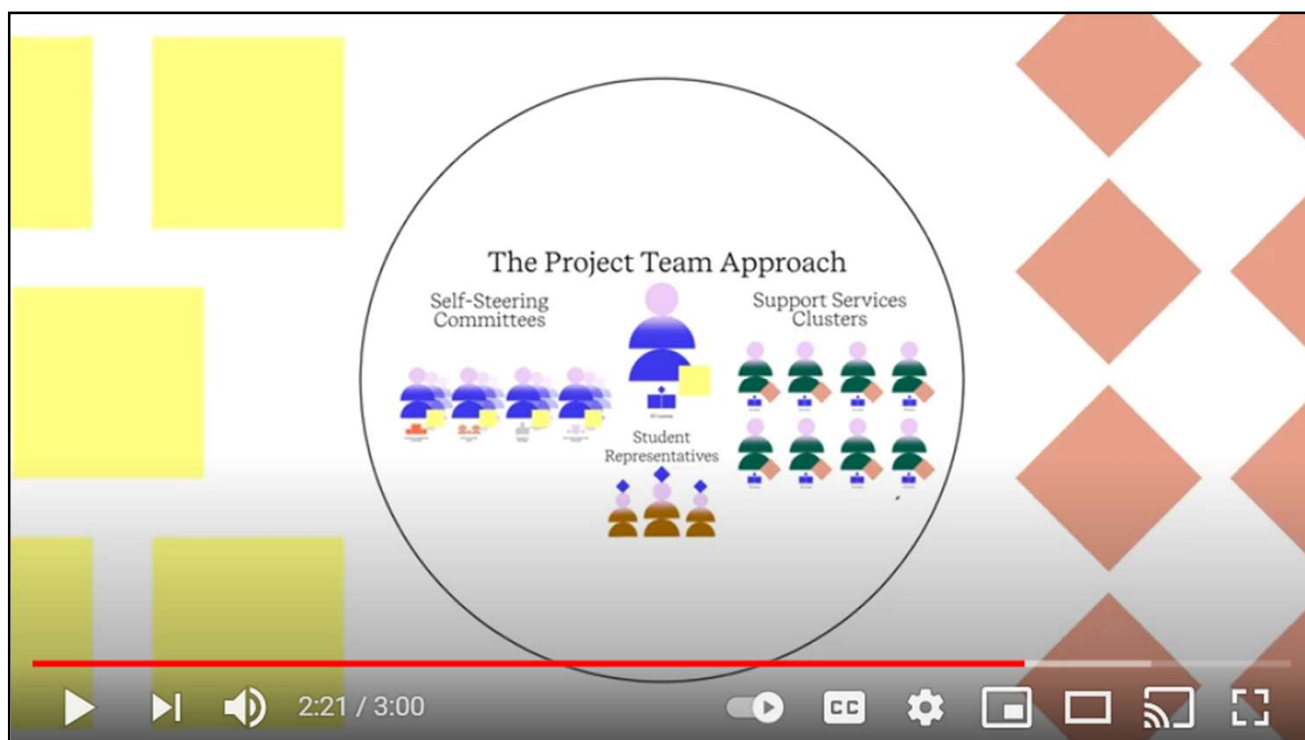

# The education dimension of our future university

- An international, value-driven and innovative community that is open and inclusive
- Joint Innovative Formats for Education and Mobility
- Communities of practice and joint support services
- Scaling and transferring our findings to the broader international higher education community

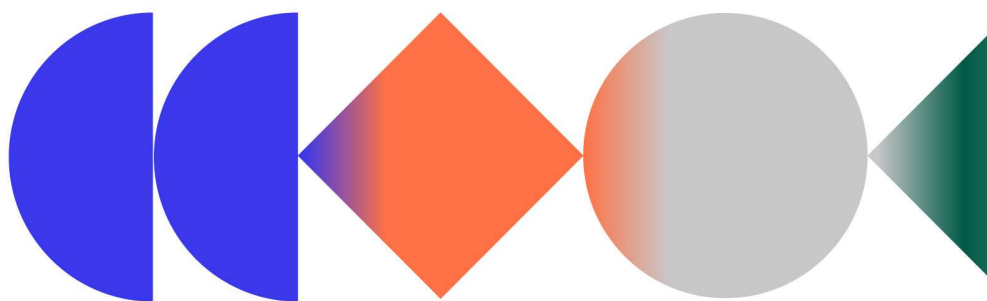

## Project Teams Approach

# Writing process of the 1Europe project
