

Specific internship Veterinary Diagnostic Imaging, Large Animals

The Faculty of Veterinary Medicine of Ghent University offers a 1-year specialized internship in Veterinary Diagnostic Imaging for Large Animals.

Start: 1 September 22, 2025; Duration: 1 year

Deadline for application: 30 June 2025

Admission Requirements:

- Diploma of Veterinary Medicine recognized in Belgium
- Completion of a 1-year equine rotating internship

We are looking for enthusiastic individual with a strong interest in diagnostic imaging who seek to enhance their knowledge base and technical skills.

The diagnostic imaging large animal hospital at Ghent University currently has one large animal DR room, ultrasound machines, a 320 slice CT scanner (for both small and large animals, including standing horses) and a low-field MRI scanner (for both small and large animals).

The role is to enhance and support our diagnostic imaging service, working closely with our team of three European Specialists in Veterinary Diagnostic Imaging, large animals, 2 ECDVI residents-large animal track, 1 radiographer, 1 rotating intern and rotating veterinary medicine students. The successful candidate can expect supported training in the acquisition of all imaging modalities including X-ray, Ultrasound, CT and MRI, and can expect to take advantage of excellent opportunities to participate in imaging rounds and journal clubs and develop skills in image interpretation. You will have access to the UGent online library including veterinary and medical journals.

You will also participate to the after-hours diagnostic imaging emergency cases.

A positive attitude, outstanding interpersonal and team-work skills are essential, along with a professional, proactive approach and a commitment to practicing the highest standards of veterinary medicine and patient care. Good spoken and written English is required. Knowledge of Dutch is not essential but would be advantageous to effectively communicate with students and referring veterinarians.

If you think you have these skills and wish to apply for our specific Internship, you must have been graduated from an EAEVE-approved and European veterinary school and are licensed or eligible to practice veterinary medicine in Belgium. You can submit your curriculum vitae, motivational letter and references to Prof. Katrien Vanderperren at katrien.vanderperren@ugent.be. The closing date for submitting the application is **June 30, 2025**. The imaging department will review the applications and invite you for an interview. If needed, visitations will be organized during the summer months. The final decision will be taken before September 1, 2025.

Interns will receive a one-year scholarship with a monthly grant (1610 euro, tax-free). No extra-payment is provided for evening-, night- and weekend duties. On-site accommodation is only provided when on night duty. Interns are expected to find and arrange their own housing.

For additional information, contact Prof. Jimmy Saunders, Head of Department, at jimmy.saunders@ugent.be
