

Large format printing

These plotters are available to the students, they are subject to a few guidelines.

- * the plotter is controlled from 1 workstation, plotting from your own PC | laptop is not allowed
 - * Large format printing = plotting is only done with PDF documents
 - * Make sure that your documents are not unnecessarily heavy, eg if you want to print black&white, put the doc. already in bl&w, check your dpi, ..).
- Documents smaller than 9mb can be mailed directly to be printed to inge.elewaut@ugent.be

If the file is larger than 9MB: www.wetransfer.com

Please e-mail your print files in PDF to Inge.elewaut@ugent.be (no USB).

- * the prints are charged at cost price
- * **PLOTTING IS ONLY POSSIBLE BY APPOINTMENT (COVID MEASURES).** If you need a print quickly, you can go to Papier & Co, plateau street, intersection with Kortrijkse Poortstr. If you all have to print the same file with a group of students. Pass this on by email, the number of prints you need and collect that money in advance, we then communicate further by email when they can be collected. For other questions or reservations: mail inge.elewaut@ugent.be

Prices since 1/8/2019

	Canon TM300	Canon IPF

	b&w R	€ 2	€ 16	€ 24
*adhesive vinyl	Cl L	€ 2	€ 16	€ 24
	Cl R	€ 3	€ 24	€ 36

the image can be printed on 300 and 600DPI : there is a big difference in quality, especially in full color areas, so it is best to use 300dpi only for test prints. There is a big difference in price due to the difference in ink usage.
