IOTIVATIVE GROUNDS (compulsory**):	

If the score on one of the four evaluation categories is 7/20 or less than 7/20, the committee can conclude, by consensus, that the student can no longer pass the entire master's dissertation.

If that is the case, and if the final mark according to the calculation percentages is 10/20 (or more), the final mark will be reduced to the highest failing mark, 9/20.

If these special conditions apply, a specific argumentation and a fair justification is required based on the final competences of the master's dissertation.

**If the score of one of the four evaluation categories or one of the sub criteria is below 10/20, a specific argumentation is necessary.
