

Angular 2 developer (internship)

This is us

Sparble is a smart application that measures and increases the engagement of teams in large companies by frequently providing personal advice to both employees and their managers. We are a young, fast-growing SaaS start-up in Ghent, Belgium.

Our engaged clients include BEL20 companies, mid-sized companies as well as other scale-ups. To serve our clients even better, we are on the look-out for an Angular 2 developer.

This is what we offer

We offer a rewarding internship as a part of an energetic and expanding team with experience in management consulting. We work on a fun location in Ghent complete with nerf guns, a respectable gaming collection and a great atmosphere. We dare to say that our company culture is quite unique, pushing your limits yet keeping it cool! We will get your hands dirty so you can learn as much as possible.

This is what you do

- You build the front-end for our new product features
- You support our continuous refactoring efforts of existing features
- You build on the experience gained by Sparble team members with the last version of Angular
- You think and work together with the IT and Product teams to continuously improve our product

This is who you are

- You live and breathe HTML5 and CSS3
- You have strong experience developing single page applications in JavaScript, and have gained experience with Angular 2
- You know your way around the JavaScript ecosystem and can thus make good build-or-buy decisions
- You can leverage inspector tools to debug and profile your projects
- You know about APIs and can collaborate with back-end developers for defining them
- You are used to working with a version control system
- You are fluent in Dutch or English
- You are a team player with a can-do mindset
- You are based in Belgium (our HQ is in Ghent)
