We are honoured to host the 14th International Conference on the Durability of Building Materials and Components from 29th to 31st May, 2017, in Ghent, Belgium. This International Conference is the 14th Meeting of the well-known and prestigious DBMC Conferences that take place every 3 years. The intent of hosting these conferences is to bring together those concerned about durability of building materials and components and thus provide a forum for discussion of the most recent research and practice in this domain.

Prof. Geert De Schutter
Prof. Nele De Belie
Prof. Arnold Janssens

Co-chairs
CONFERENCE DOMAINS

A. Building physics and durability
B. Historical buildings and renovation
C. Building pathology
D. Diagnosis, repair, and maintenance
E. Durability of materials, systems and components
F. Service life analysis and prediction methodologies
G. Durability, LCA and sustainable construction
