Who are you?

Which department?

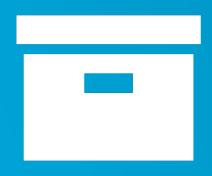

• Which role (student, PhD student, teaching assistant, postdoc, ...)?

Experience with paper writing/reference management?

Topics

INSTALL

CONFIGURE

ADD PAPERS

Reference software

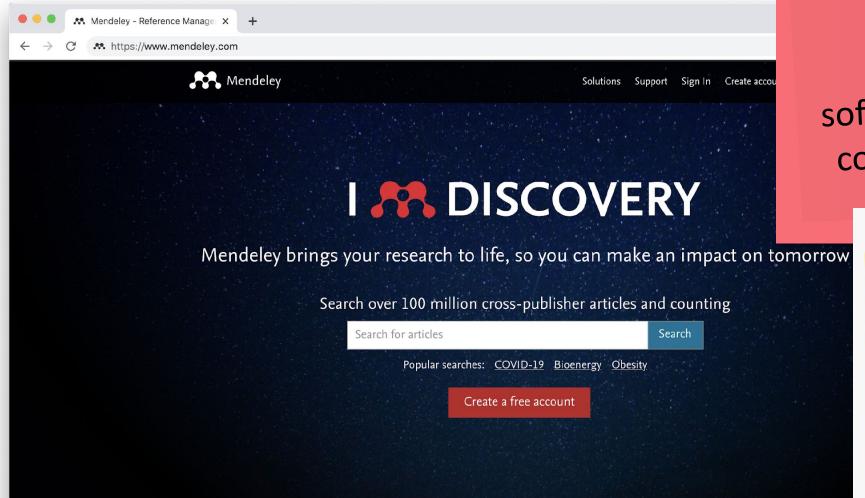

Install via www.mendeley.com

Tip

The new software is not complete yet

Tip

Download old:

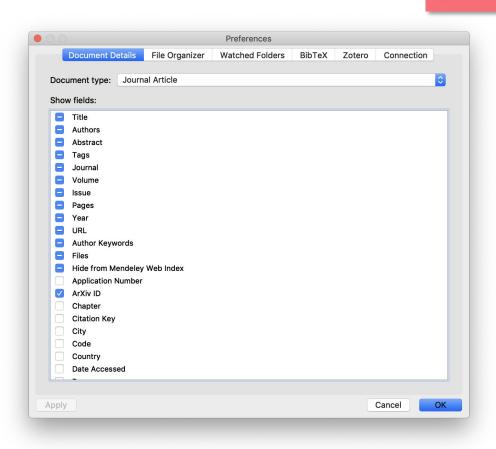

www.mendeley.com/ autoupdates/ installers/1.19.8

Configure

Configure in **Document Details** which fields to show/hide for each type of document

• e.g. ArXiv ID, Citation Key, Language

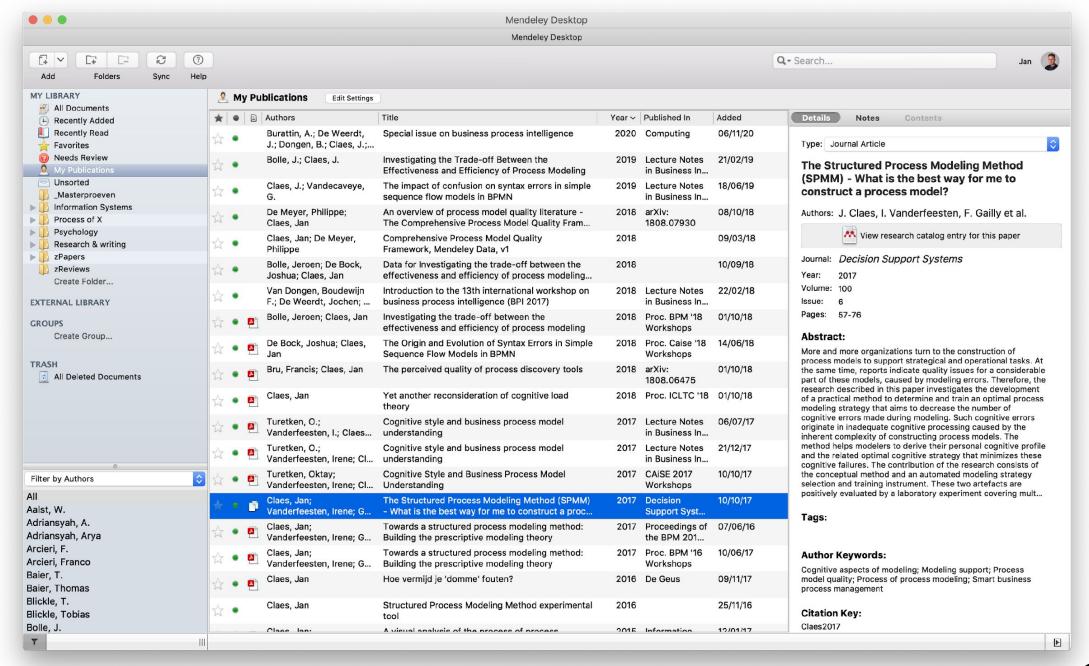

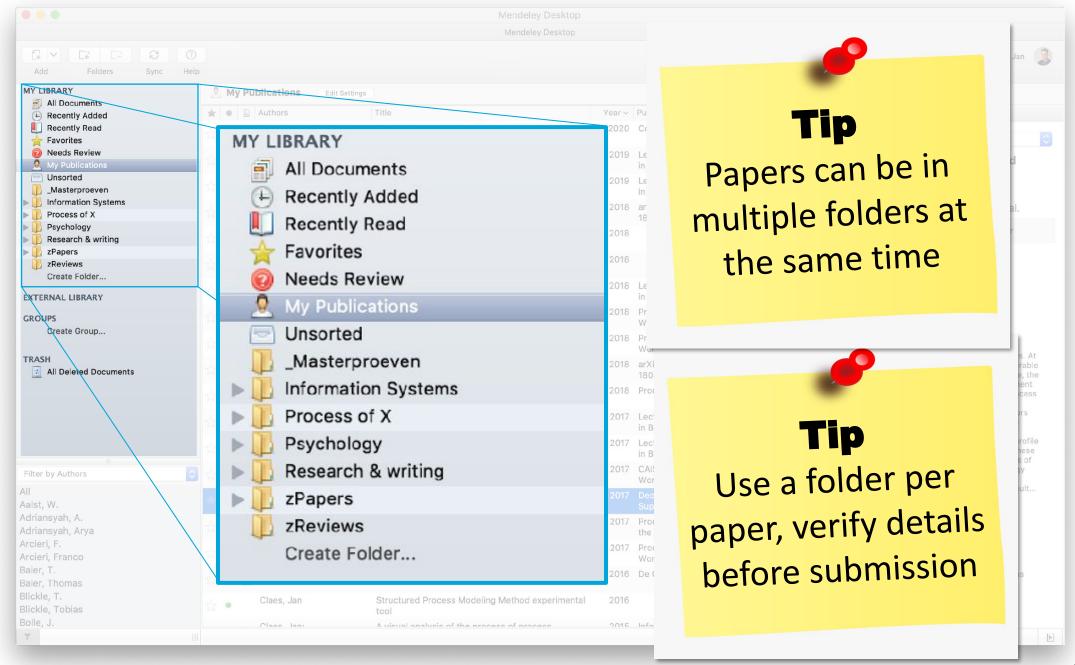

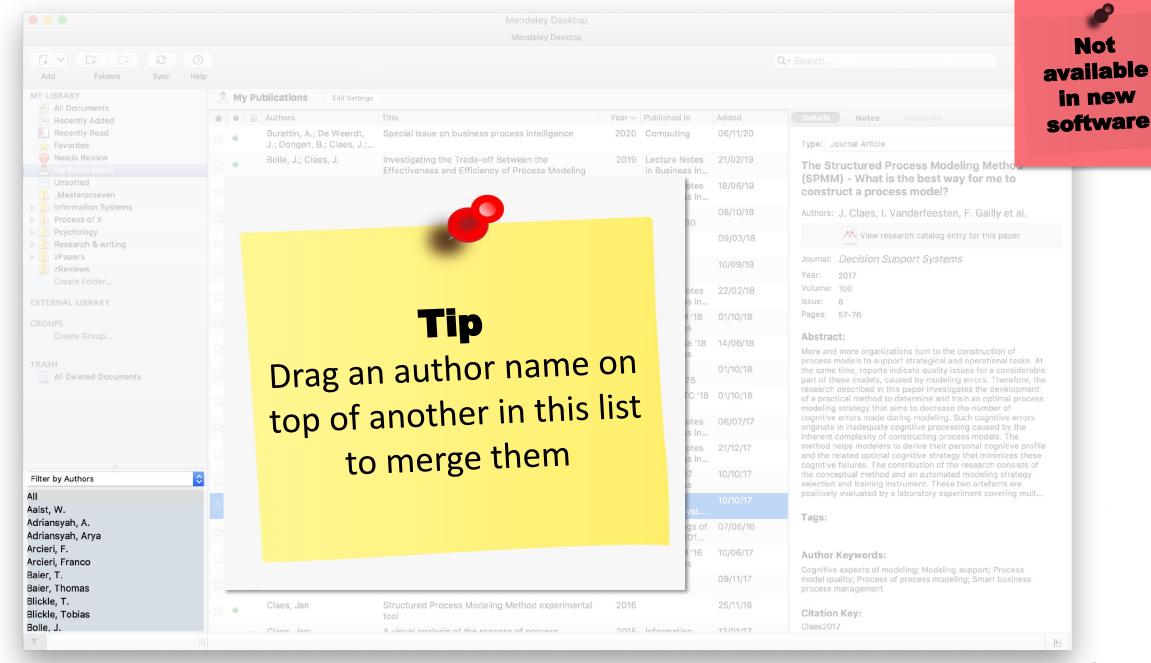

Configure Watched Folders!

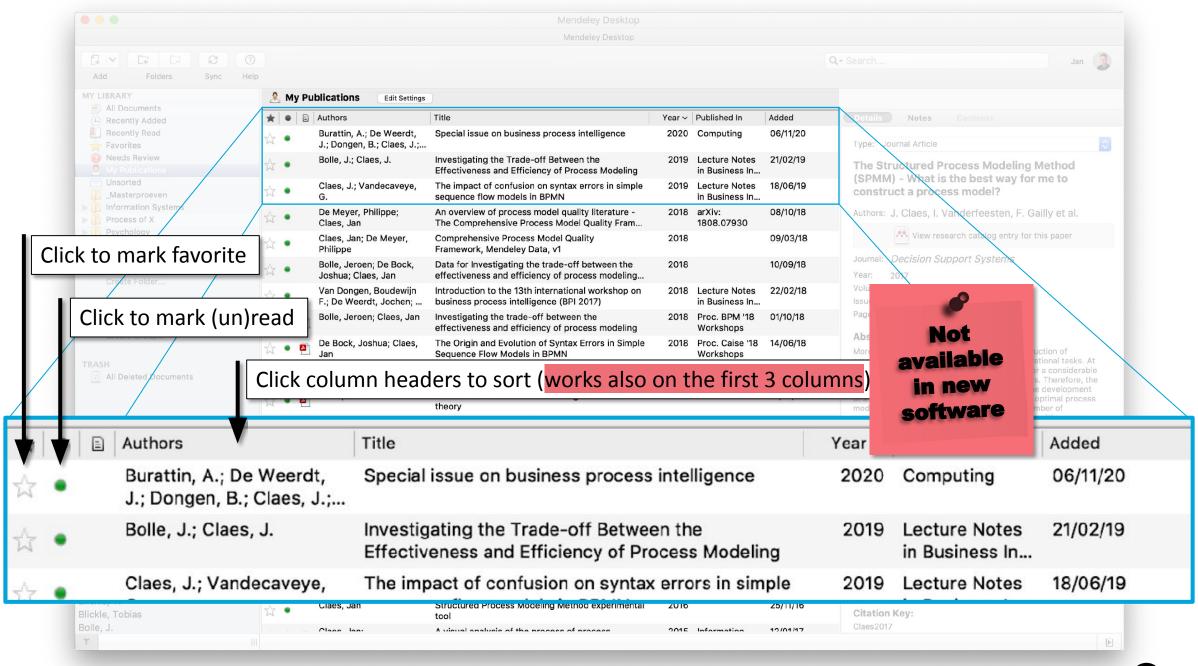

- Any pdf you save in these folders, will be automatically indexed by Mendeley
- It will extract title and authors from the pdf
- It will search Google Scholar for more information
- You can still change the record afterwards

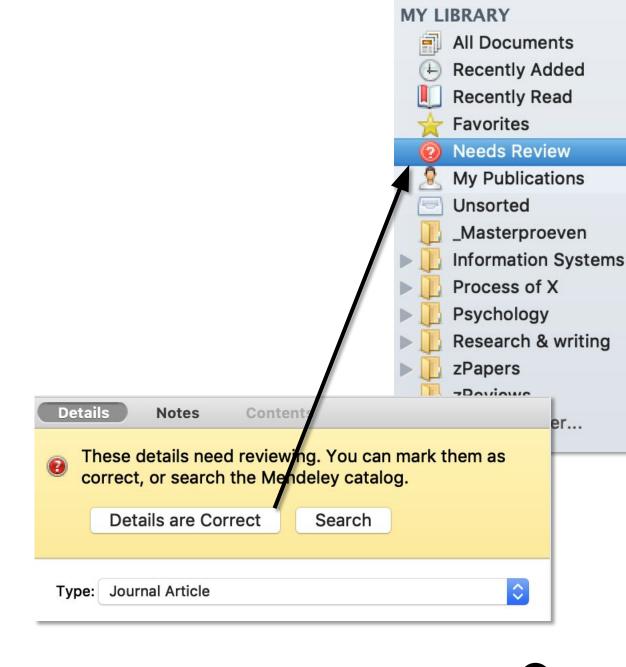

Add papers

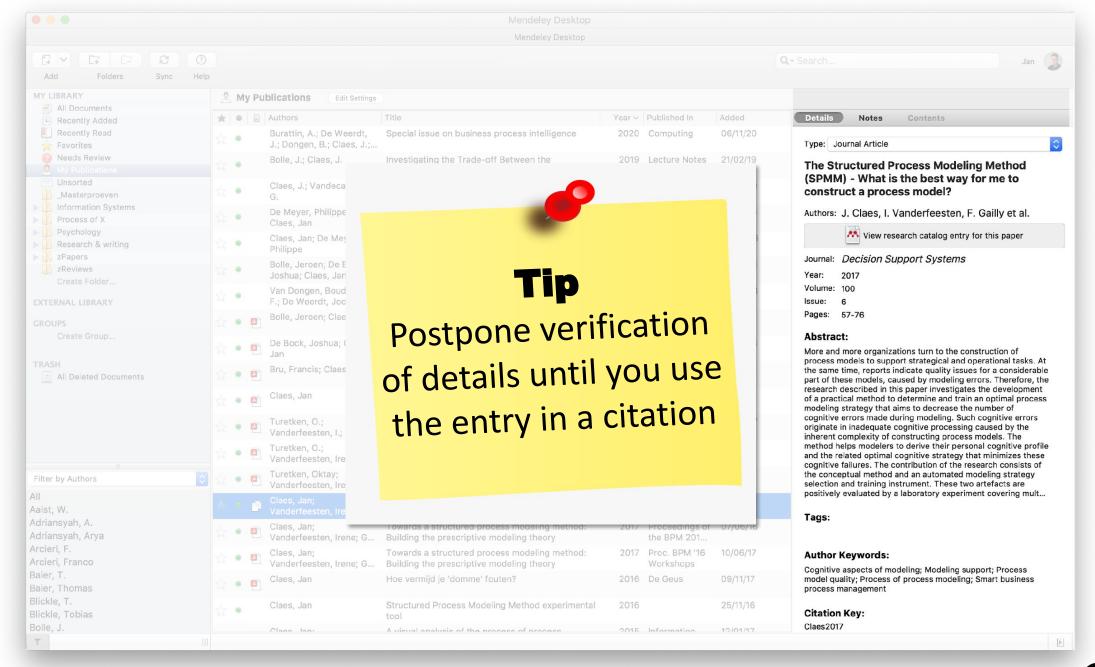

- Option 1. Store pdf in "watched folder"
- Option 2. Add manually

Mendeley will usually already search for more info in Google Scholar

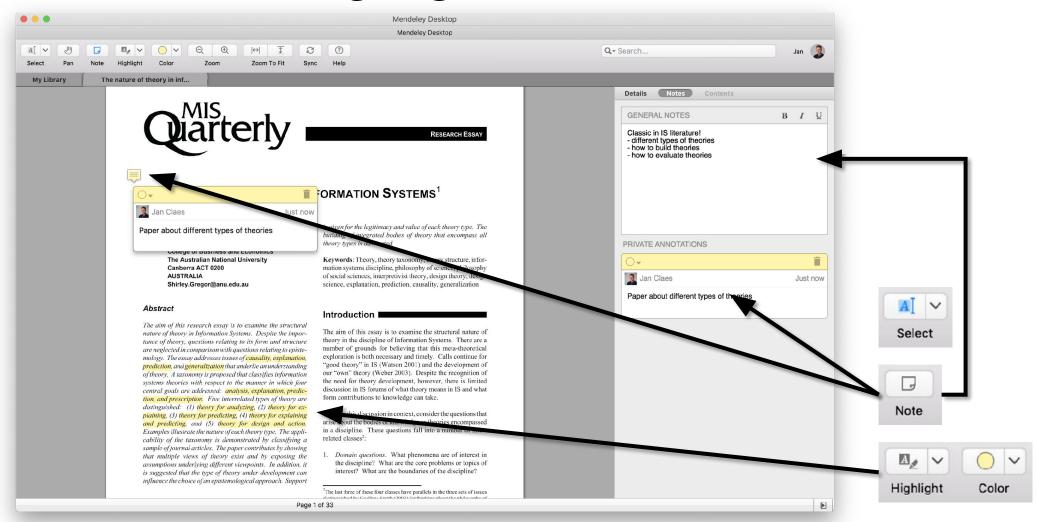

- You can verify and mark "Details are Correct"
- You can also restart the "Search",
 for instance after changing some fields
