Guidelines for authorship

The Faculty of Pharmaceutical Sciences supports the recommendations put forward by the International Committee of Medical Journal Editors (ICMJE). ICMJE developed these recommendations to help authors to create and distribute accurate, clear, reproducible, and unbiased journal articles.

The recommendations can be found at http://www.icmje.org/recommendations/browse/roles-and-responsibilities/defining-the-role-of-authors-and-contributors.html.

While stressing the importance of these guidelines, the Faculty of Pharmaceutical Sciences acknowledges that certain situations may arise in which not all of these recommendations can be followed.

Who to contact in case of questions and complaints concerning authorship

The first point of contact for questions about authorship or for complaints in case of a dispute concerning authorship, is the chairman of the FCWO.

If there is a conflict of interest, the permanent or replacement Faculty ombudsperson for doctoral students can be contacted.
