

# THUISVERPLEEGKUNDIGE TUSSEN DE HUISARTS EN DE PALLIATIEVE PATIËNT – VERKENNING IN DE EERSTE LIJN

Fien Mertens - Alumni Geneeskunde UGent 7 dec '22

**THUISVERPLEEGKUNDIGE  
TUSSEN DE HUISARTS  
EN DE PALLIATIEVE PATIËNT**

# Palliatieve zorgnoden: toegenomen

complexer

United Nations, Department of Economic and Social Affairs, Population Division (2022). World Population Prospects 2022: Summary of Results. UN DESA/POP/2022/TR/NO. 3.

# Voorkeur voor thuis blijven en sterven

Gomes et al. (2012). Preferences for place of death if faced with advanced cancer: A population survey in England, Flanders, Germany, Italy, the Netherlands, Portugal and Spain. *Annals of Oncology*, 23(8), 2006-2015.

**THUISVERPLEEGKUNDIGE  
TUSSEN DE HUISARTS  
EN DE PALLIATIEVE PATIËNT**

  
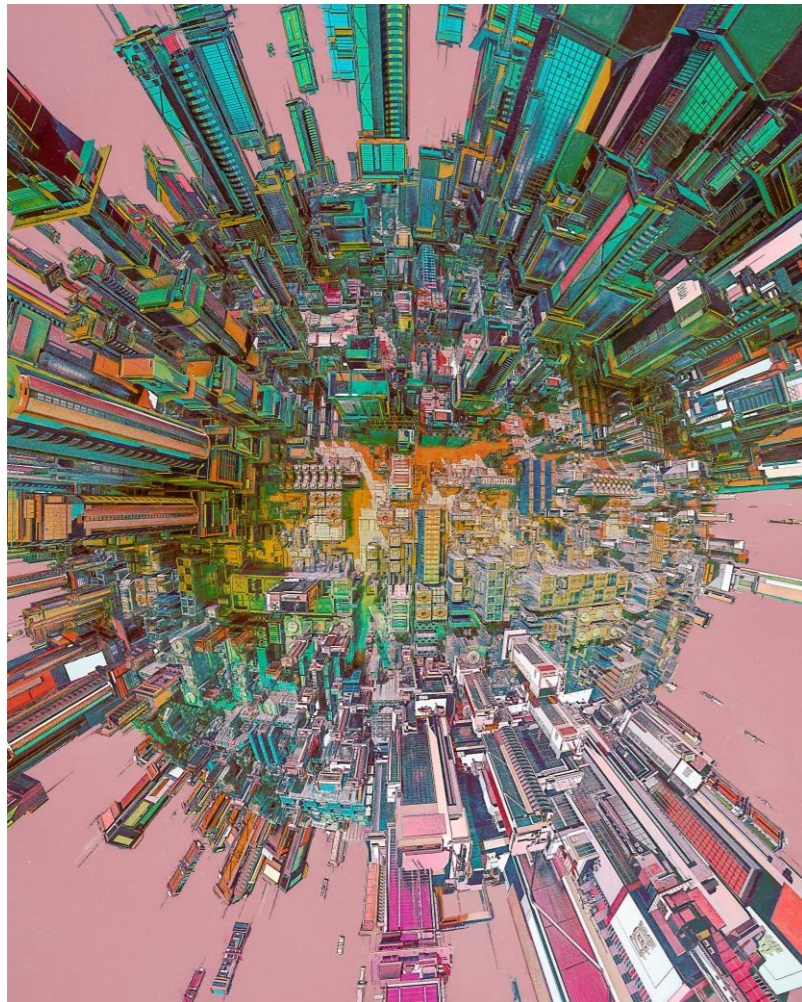

palliatieve  
zorg VLAANDEREN

# Versnippering

# Besluit:

- Complexe zorgnoden, complex zorglandschap
- Complexe samenleving

**THUISVERPLEEGKUNDIGE**

**TUSSEN DE HUISARTS**

**EN DE PALLIATIEVE PATIËNT**

# Toegenomen complexiteit:

- Shift van verpleegkundige zorg in ZH naar thuisverpleging
- Meer gespecialiseerde zorg

# Palliatieve zorg = teamwork

World Health Organization (WHO) (2010). Framework for action on interprofessional education and collaborative practice.
