The screenshot displays the Ghent University Academic Bibliography website. At the top, the university logo and name are visible, along with navigation links for 'Add publications', 'Statistics', 'Marked list', and 'Saved searches'. A search bar and a navigation menu with 'Home', 'Publications', 'People', 'Organizations', and 'Projects' are also present. A prominent blue button labeled '+ Add your publications' is highlighted with a red rectangle. Below this, a bar chart shows the number of publications added each year from 2006 to 2013. To the right of the chart, three columns of statistics are provided: total publications (195,427), publications with fulltext (70,706), and publications with Open Access fulltext (23,218). Below the statistics, a section titled 'Deposit mandate and Open Access' explains the university's policy on scientific publications, including a link for more information. On the right side of the page, a 'Recently added' section lists several publications with their titles, authors, and publication details.

[Deposit mandate and Open Access](#)

 Ghent University has implemented an *Immediate Deposit/Optional Open Access* mandate for scientific publications as of publication year 2010. As a consequence, only publications with an electronic full-text attached are registered. More information about the mandate can be found [here](#) (in Dutch). Moreover, UGent asks to make the full-text available in Open Access, if possible. An Open Access publication is available online to the public, immediately, without costs and without loss of quality.
