Teaching languages

English

Keywords

research, cognitive psychology, neuropsychology

Position of the course

This course teaches the student to independently carry out research, often as one part of a larger team. It directly prepares the student for professional research.

Contents

In this course, a topic within the domains of cognitive psychology or neuroscience is covered.

Initial competences

You can download the list of prerequisites on <https://oasis.ugent.be/oasis-web/curriculum/voorkennisvancursus?cursuscode=H002007&taal=en>. To check if there is any succession on this course, please refer to www.ugent.be/pp/nl/diensten/fdo/git

Final competences

- 1 To set up, run, analyse, and interpret an experimental study in a methodological and theoretical appropriate way
- 2 Report experimental research in the form of a scientific paper
- 3 Report experimental research in the form of a talk; interact with critical listeners after the talk
- 4 Communicating scientific research to a broad audience
- 5 Participating in a constructive way in a research team

- Interactive support using MINERVA (FAQ, e-mail).
- Interactive support using departmental website

- By appointment.

Evaluation methods

continuous assessment

Examination methods in case of periodic evaluation during the first examination period

Examination methods in case of periodic evaluation during the second examination period

Examination methods in case of permanent evaluation

Participation, assignment, job performance assessment, report

Possibilities of retake in case of permanent evaluation

examination during the second examination period is not possible

Extra information on the examination methods

- Form:
 - 1 Written report: report of research activities in the form of an article.
 - 2 Oral report: brief oral presentation of the research, similar to conference presentation
 - 3 Evaluation of daily performance. Assessment, by the supervisor, of the daily performance.
 - 4 Blog post about the research and/or internship experience.
 - 5 Participation in an orientation session on the profession.
- Consequences of unmotivated absence: students who eschew periodic and/or permanent evaluations for the course unit concerned are given a non-deliberative final quotation.
- Feedback: on appointment

Calculation of the examination mark

Written report 45%, assessment of daily performance 45%, oral report 10%
